PE		

GFR (1996-2007)**	Degree Audit	Pending Changes/Issues with DA
Arts and Humanities		
Social Sciences		
Math		
Science		
Language & Culture		
English Comp		
PE		

* A WARNING ABOUT CREDIT TOTALS: If you fail to complete any courses in which you are currently registered, those credits must be deducted from this total.

** A WARNING ABOUT TRACKING UNIVERSITY REQUIREMENTS: As you fill out this form be sure to keep track of which courses you have completed and which you have not (incompletes, current semester classes, pending transfers from other institutions). Each semester, check to see if all the courses you believe should have posted to the transcript have been posted. Once a course has been posted, check the Degree Audit online to be sure it has been accepted as fulfilling the intended requirement. If a course from another institution that you intended to fulfill a requirement has been posted but not recognized for the requirement, speak with the Registrar's office to determine if it can be re-evaluated. If you are eligible for exemptions from the requirements, be sure to fill out the paperwork to get those exemptions noted on the Degree Audit. Do not consider any requirement met until the courses fulfilling that requirement have posted to the transcript and been recognized by the Degree Audit system. As you add more courses to your transcript, Degree Audit may reallocate courses among the requirements and re-interpret your completion status, so check these requirements each semester.
