

# UMBC eCycling Day

“Bring Your Old Electronics to Work Day”

**When:** *Friday, April 22*  
**Where:** *Erickson/Library Field at intersection of Center and Poplar (curbside service)*  
**Time:** *11a-1p*

## **What items can be brought?**

Bring your computers, laptops, printers, copiers, TVs, fax machines, keyboards, CD players, scanners, shredders, vacuum cleaners, speakers, cables/cords, telephones, DVD players, microwaves, VCRs, radios, and anything else that plugs in or runs on batteries. (anything with a cord)

## **Where will items be recycled?**

The contractor that recycles our old equipment is Computer Donation Management, Inc. CDM eCycling (CDM) is a Maryland Corporation in Baltimore City providing responsible handling of e-waste materials for the Mid Atlantic region. According to CDM, e-waste is another word for electronic or equipment waste that is no longer usable or unwanted. It is sent to one of many equipment specific dismantling departments where it is manually separated and sorted into final recovery of raw materials.

## **Why is this important to UMBC?**

The environment you live, work and play in, is important to UMBC. UMBC is committed to sustainability. It is supported by the leadership of the campus.

## **What's next and how do I get involved?**

Attend ECOfest , bring your recyclables and learn what other sustainable things are happening on campus . Spread the word, recycling is important!
