! TIPS FROM THE BOARD

Balance your time by making room for both your social life and academics so neither suffers.

Form study groups with people in class and try to meet at least once a week.

Be authentic. Trust in the vision you have for yourself! You are already enough!

ALWAYS attend class even when you don't feel like it.

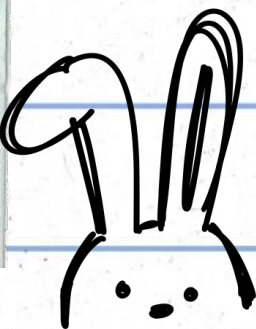

Try to go on as many sidequests as possible, go out and explore campus.

Go to all our events around campus this year, you won't regret it!

Make sure to meet new people and include others to help everyone feel welcome on campus.

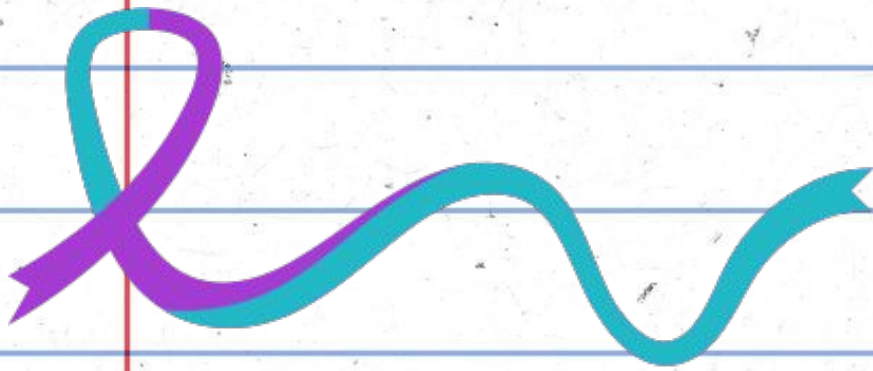

Get organized using a planner, set clear goals, and don't procrastinate!

XOXO
