

## USG STEM SYMPOSIUM

# WHAT IS BIOINFORMATICS?

Sponsored by the Engineering and Technology & the Health and Life Sciences Hubs

**FEBRUARY 27, 4:00 - 5:00PM [VIA ZOOM]**

*Featuring Keynote Speaker:*

**Dr. Elizabeth Friar, UMBC B.S. in Translational Life Science Technology (TLST) Program**

Explore the fast-growing field of bioinformatics, where biology and data science intersect to drive innovation in biotech and biomedical research. This session will cover the essential skills for entering the field and highlight UMBC's TLST major's bioinformatics track as a direct pathway to careers in Maryland's biotech industry.
