

Calling all Junior & Senior STEM Majors! Participate in our Study and Earn \$15!

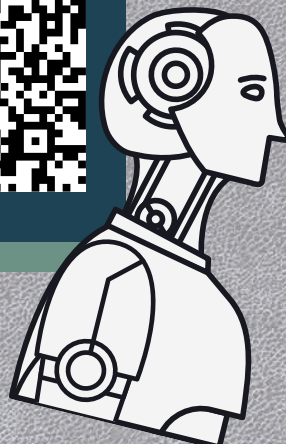

The purpose of this study is to understand the experiences of undergraduate STEM students and their perceptions of institutional support and sense of belonging. You will be asked to complete an online Qualtrics survey that will take approximately 10-15 minutes. The survey includes questions about your perceptions of support from faculty, staff, advisors, and other personnel at UMBC, your sense of belonging in STEM, and some demographic information. Following the survey, you will participate in a 90-minute virtual focus group, where you will talk with a small group of other participants about your experiences with institutional support and sense of belonging.

To participate in this study, you must be in at least your junior year of college and identify as a STEM major (i.e., Chemistry, Biology, Physics, Engineering, Computer Science, Mathematics, Statistics, & Psychology BS)

Contact Allison French at afrench2@umbc.edu for any questions!

Participants who complete the **Survey** and **Focus Group** will be given a **\$15 Gift Card** in exchange for their time
