

TEMPLATE:

4" X 5.25" Quartercards

HOW TO USE THIS TEMPLATE:

- Keep your design **within the red outlines** (design edge).
- **Duplicate your design** three more times in the remaining areas on this page. There should be a total of four copies of your design on one page.
- **For full bleeds:** have your image run at least 1/8th of an inch beyond the design edge (see **gray bleed edge**). Create a new file that is larger than 8.5" x 11", and paste your images there.
- **Outline** your fonts for maximum compatibility.
- **Delete this layer** before saving your final design.

**COPY YOUR DESIGN HERE.
BE SURE TO LINE UP YOUR DESIGN
TO THE RED OUTLINES.**

We also offer cutting services!

Save yourself the hassle, and have perfectly-cut quartercards.
