

# We're Hiring!

**Camp Journey**, a Sheppard Pratt program, is a respite program that provides short-term, temporary care to youth ages 11 to 17. Our team offers recreational activities so youth with behavioral or emotional challenges can have fun and learn new skills.

We offer both hourly and overnight services. By giving parents and caregivers a periodic, planned break, we help reduce stress at home and increase the likelihood that children can remain in their home with their family, rather than being placed in an alternate form of care.

## Why work at Camp Journey?

- Flexible schedules: part-time shifts, early shifts, awake overnight shifts with pay differential, and more
- Fun and friendly work environment with young professionals; great opportunity for new graduates seeking experience
- Work with youth in recreational setting

## Roles available:

- Child & Adolescent Mental Health Workers  
Flexible schedules: part-time shifts, early morning shifts, evening shifts, awake overnight shifts with pay differential, and more.
- Intake Specialist
