This event showcases the finalists from this year's competition entries. The CBIC is an opportunity for UMBC students who are serious about starting a business or social impact venture to pitch their idea to a panel of judges to win money to help launch their venture.

A networking session with heavy hors d'oeuvres and drinks will be held prior to the event for attendees to meet alumni entrepreneurs, fellow students and community members interested in entrepreneurship.

The CBIC is made possible by the generous support of
