Peer Review Form

(Adapted from Larry Michaelsen's example on www.teambasedlearning.org)

Please assign scores that reflect how you really feel about the extent to which the other members of your team contributed to your learning and/or your team's performance. This will be your only opportunity to reward the members of your team who worked hard on your behalf. (**Note: If you give everyone pretty much the same score you will be hurting those who did the most and helping those who did the least.**)

Instructions: In the space below please rate each of the **other** members of your team. Each member's peer evaluation score will be the average of the points they receive from the other members of the team. To complete the evaluation you should: 1) List the name of each member of your team in the alphabetical order of their last names and, 2) assign an average of ten points to the other members of your team (Thus, for example, you should assign a total of 40 points in a five-member team; 60 points in a seven-member team; etc.) and, 3) differentiate some in your ratings; for example, you must give at least one score of 11, one score of 9 or lower, and so on.

2)		6)	
3)		7)	
4)		8)	

Additional Feedback: In the space below would you also briefly describe your reasons for your highest and lowest ratings. These comments -- but not information about who provided them -- will be used to provide feedback to students who would like to receive it.
