

Neuroscience Undergraduate Research Opportunity (NURO)

Are you interested a summer research opportunity?

The University of Michigan Neuroscience Graduate Program (NGP) focuses on excellence in education, research training, and professional development.

We are a collegial, diverse, and interactive group that encompasses the breadth of neuroscience. Our program captures the excitement of interdisciplinary collaboration that is key to the field of neuroscience.

The NGP has over 150 faculty members whose research spans the different subdivisions of neuroscience, including Behavioral and Systems, Cognitive, Molecular and Cellular, Clinical, Developmental, Sensory, and Computational.

Program Dates

May 31, 2020- August 8, 2020

Application Deadline:
January 17, 2020 11:59pm EST

During our ten-week program, participants will:

- Be actively engaged in a research project
- Participate in professional development workshops
- Network with NGP faculty and students
- Have opportunities for a variety of social events
- Prepare and present their summer research during a mini-symposium

“This summer research helped me be more confident as a scientist and also make connections that will be useful for the future.”
- summer program participant

Our summer program provides housing, a stipend, and travel to the program for accepted participants

NURO is supported through a R25 research education grant through the National Institute of Health (NIH), National Institutes of Neurological Disorders and Stroke (NINDS)
