

# HHMI Summer Undergraduate Research Program

---

## Overview

The Howard Hughes Medical Institute (HHMI) is excited to announce the launch of a new Summer Undergraduate Research Program. Beginning June 2025, HHMI will support a select group of undergraduate students in HHMI labs at host institutions across the country. Over the course of eight weeks, program participants will engage in cutting-edge basic research, connect with a vibrant scientific community, and build essential professional skills for future success in a scientific career.

## Program Elements & Student Benefits

> **June 16 – August 8, 2025**

> **Generous Stipend.** All SURP Scholars will receive \$12,000 for participation in the 8 week program. *Students will be responsible for their own housing, meals, and personal expenses.*

> **Research Project.** 8 weeks of cutting-edge research in an HHMI lab

> **Professional Development and Community Building**

> **Presentation Opportunities**

HHMI's Summer Undergraduate Research Program promises to be an enriching experience for students, fostering scientific discovery and professional growth.

## Eligibility and Application Process

The program is open to current undergraduates in good academic standing who are US citizens, permanent residents, DACA, or authorized to complete a paid academic internship in the US under visa or work authorization terms. Recent graduates are not eligible to apply. HHMI does not sponsor visas for this program.

All interested undergraduates must complete an application to confirm eligibility, provide basic personal information, and describe how participation in the program will support their professional goals.

**HHMI will accept applications from May 1 to May 21.** Interested individuals are strongly encouraged to apply as early as possible.

**Ready to Apply?** Access the SURP application site [here](#).

**Questions?** If you have questions about eligibility, the application process, or program details, please reach out to [surp@hhmi.org](mailto:surp@hhmi.org).

*Note: Participation in HHMI's Summer Undergraduate Research Program is a research experience for the student's own educational benefit. It is not an offer of employment.*
