

Do you have a child going into 1st, 2nd, 3rd, or 4th grade in Fall 2017?

A graduate student in the Psychology department at UMBC is recruiting children going into 1st-4th grades in Fall 2017 for her dissertation, and she needs your help! She would like to know about parents' and children's beliefs about math.

- Parents complete a questionnaire (about 10 minutes) and receive a \$5 gift card
- Children complete an interview and some math activities (about an hour) and get a small prize
- She can meet at a location that is convenient for you!

IRB Protocol Y16SS20266 approved for us 07/11/2017 – 06/14/2018

If interested, please email Shari Metzger at smetz2@umbc.edu. Thank you!
