

Interfaces and Surfaces - A Materials Science Research Experience for Undergraduates at Clemson University

May 22nd, 2016 to July 30th, 2016

Deadline for receipt of applications: February 1, 2016

General Information: <http://www.clemson.edu/ces/mse-reu>
Applications: <http://www.clemson.edu/ces/mse-reuapplications>

Hosted by the Clemson University Department of Materials Science and Engineering
and Sponsored by the National Science Foundation.

We are looking for eleven undergraduate students interested in performing engineering and scientific research at Clemson University during the summer of 2016. During the ten-week program, students will have a chance to conduct their own research project under the guidance of a faculty advisor and a graduate student mentor. *This program was designed to help participants have a positive research and social experience, and to encourage them to pursue graduate studies and research careers.* All student participants will have the opportunity to meet with industrial entrepreneurs and academic researchers, attend professional development workshops, and attend various social activities.

Benefits:

- Chance to work with a team on exciting research projects at Clemson University for the summer.
- Stipend- \$5,500 over 10 weeks
- Free housing
- Travel stipend (\$500)

Eligibility:

- Students at all levels of their undergraduate work and from a variety of majors are sought for this program.
- Must be a US citizen or permanent US resident.
- Priority will be given to students who have at least a 3.5 GPA and who have not had a research experience within an REU program.
- All participants must be currently registered at a two- or four-year college, and may not have received their Bachelor's degree prior to January 2017.
- Women and members of demographic groups traditionally under-represented in engineering are particularly encouraged to apply.
